

**AFTER 2 YEARS** of ideas, preparations and negotiations around our common vision of a Tantric-Meditative Lifestyle Community with Seminar Centre, Retreat & Healing Centre, we have now reached the level of possible realisation.

We want to establish a tantric, meditative, free, holistic, ecstatic, a big « Yes-to-Life! » community of at least 25 people living together in a well selected place.

Many meetings onsite and lately with zoom lead to the development of our common understanding of the creation and organization of this wonderful vision of our tantric community.

You can read the up-to-date results of our survey with more than 35 answers here:

The most interesting place, Masia de Matuta, a fantastic spot with 27 hectares of land and a large house with 10 finished rooms already existing and available for immediate use, was found to be the most beautiful, energetic and inspiring.

Those who have visited the place could feel the overwhelming beauty of this place and its great potential for our vision.

**NOW THE TIME HAS COME** for us all to open our hearts to this extraordinary adventure. The sales contract has been successfully negotiated and a pre-contract is about to be signed. The funds for buying the property and the start-up of the first extra buildings have been provided by a group of eight members of our community: Andreas, Bodhi, Hari, Irene, Maike, Manfred, Michael and Utchi. These so-called "investors" or "start helpers" are willing to invest a total of 1.5 million euros. New investors are still very much welcome!

Subsequently to the purchase of the property, we will constitute our cooperativa (co-operative) which will then be in full charge to co-create and coordinate the next steps towards the realisation of our vision in an equal way with shared responsibility and rights amongst all members.

At some moment in the past you have shown interest in the idea of a Tantric Community. Now is the right moment to come closer to its realisation.

You're still on time to become a founding member and co-create this beautiful vision together with us! If you're interested, please contact Utchi at [frankutchi@gmail.com](mailto:frankutchi@gmail.com) or at (+34) 677 549 660 and he will be happy to explain all details.

For and from AMITA and our Comm'Unity,

*Made on Earth, with love, on Feb.14th, 2021*
